SUMMARY

Product Designer with 4 years of experience delivering end-to-end UX design for enterprise B2B SaaS platforms at global scale. Specializes in AI-powered operational tools, supply chain systems, and catalogue platforms – using Figma for wireframing, interaction design, prototyping, and design systems. Proven track record of driving measurable business outcomes through user research, usability testing, A/B testing, and cross-functional collaboration with product and engineering teams, including a 92.9% reduction in task completion time and \$9.8M in annual cost savings.

EXPERIENCE

Walmart Global Tech India

UX Designer III

July 2022 – Present

Bengaluru, India

- Led end-to-end UX design across three enterprise domains – catalogue operations, AI-powered diagnostics, and supply chain – owning the full process from user research, wireframing, and user flows in Figma through to high-fidelity prototypes, design handoff, and developer collaboration.
- Designed Event One, a centralized enterprise event creation platform; reduced event creation time by 92.9% (120 mins to 7–10 mins) through interaction design improvements validated via usability testing and redesigned information architecture; scaled platform from approximately 500 to 1,600+ annual events.
- Designed ATOM, an intent-based AI search platform covering 100% of operational modules; automated issue identification for 90% of item-related cases, reducing manual investigation time to near zero; improved decision-making speed by replacing dense data tables with intent-driven, prioritized datasets, reducing cognitive load for operational users.
- Drove BYOD device migration (TC to Samsung XCover Pro) for the Global Integrated Fulfillment supply chain team through user research and usability testing, reducing associate wait times by approximately 18% and improving pick rates.
- Redesigned supply chain exception management workflows using user journey mapping and interaction design, cutting handling time from 10–14 mins to approximately 5 mins per exception.
- Introduced an expiration date guidance feature for warehouse associates informed by user research and A/B testing, eliminating \$9.8M in annual expired inventory returns.

La Vie Design Studio

UI/UX Designer

March 2022 – April 2022

India

- Designed MVPs for an e-commerce web platform and a productivity mobile app; delivered wireframes, user personas, user flows, high-fidelity UI, and interactive prototypes in Figma.
- Led end-to-end UX design for a B2B SaaS timesheet product from discovery and user research through design system creation, mobile design, and prototype handoff.

Lifespark Technologies

Product Design Intern

May 2021 – September 2021

India

- Contributed to WALK, a healthcare mobile product for users with Parkinson's disease; redesigned the physical product form and UX interaction model, and conducted usability testing sessions with target users to validate design decisions.

SKILLS

Design Tools: Figma (Wireframing, Prototyping, Design Systems, Component Libraries, Design Tokens), Adobe XD

UX Design: End-to-End Product Design, Interaction Design, Information Architecture, User Flows, Visual Design, Responsive Design, Mobile Design, Accessibility (WCAG 2.1), Inclusive Design

User Research: User Research, User Interviews, Usability Testing, A/B Testing, User Journey Mapping, User Personas, Research Synthesis, Heuristic Evaluation, Design Thinking

Process & Collaboration: Design Handoff, Cross-Functional Collaboration, Agile/Scrum, Design Sprints, Stakeholder Management, Discovery & Delivery, Design Ops, Hypothesis-Driven Design, KPI-Driven Design

Domain: Enterprise SaaS, B2B Platforms, AI-Powered Products, Supply Chain UX, Platform Scalability

AI & Emerging Tools: Vibe Coding, Claude Code, AI-Assisted Design, Prompt Engineering for Design, Generative UI Prototyping, Design-to-Code Workflows, Engineer Handoff via AI-Generated Code

EDUCATION

Master of Design Shiv Nadar University (2020 – 2022)
Thesis: Designing Android Smartphone Interface for People with Hand Tremors

Master of Arts, Political Science IGNOU

Bachelor of Arts, English (Honours) University of Delhi

AWARDS

- **Walmart Bravo Award** – Recognised for exceptional design contributions and measurable business impact.
- **SparkTech 2023–2024 Finalist** – Selected to present UX research paper to senior leadership at Walmart US headquarters in Bentonville, Arkansas.
- **Patent Pending** – One UX concept currently under review by Walmart patent team for potential patenting.
- **ICoRD 2023 Finalist** – Recognised for inclusive product design: menstrual pad and packaging redesigned for users with single-hand function.
